GOLD/WHITE LAVA LARGE CHUBBY VASE

ORGANIC GILD

COMPANY Waylande Gregory Studios**RETAIL** \$895 **INFO** waylandegregory.com

"This vase is like a piece of jewelry for a room. Like adding a beautiful gold cuff bracelet to a simple dress, the piece is strong and feminine at the same time. The combination of gold and white is so classic! I often use it in my designs when people want a neutral room. This vase would be perfect on a fabulous tabletop or in bookshelves as a pair to add some glamour. It would be gorgeous mixed in with other white ceramic and gold objects as well."

+ As bold, dramatic and original as the late ceramic sculptor Waylande Gregory himself, this graphic vase dazzles through its use of porcelain ceramic and 22-karat-gold luster. Showcasing Gregory's signature organic pattern, the vase epitomizes the sculptor's technical precision and distinctive aesthetic.
